

THE FEATHER-LIGHT ALTERNATIVE TO STEEL

These lightweight aluminum main switch lockout devices are available in two shackle sizes to accommodate various needs.

Six padlocks can now be mounted at once to independently secure the energy point, preventing unauthorized reconnection - an improvement from only being able to mount one at a time.

Technologies

- Aluminum: Light and corrosion-resistant
- Holds up to 6 padlocks

Use and application

- Lock out power switches during maintenance
- Ideal for lockout applications where more than one safety padlock has to be attached

Variants

- H751: Small 1"
 - H752: Large 1,5"
-

Aluminum 1 1/2" (H752)
