ATTEMPTED THEFT THWARTED EFFORTLESSLY

With the 402 from ABUS, you can protect your bike or scooter with one of the safest types of lock available: a U-lock.

The round handle is made of 11mm specially hardened steel and is double-locked in the lock body. The modern design of the 402 fits well in your hand and makes using it a daily pleasure. The lock body and the locking mechanism behind it impress with the same quality steel as the shackle itself.

The 402 also has a lot to offer against more subtle theft methods, such as picking attempts, thanks to its high-quality locking cylinder.

Technologies

- 7/16", hardened steel round shackle
- Double-locking mechanism securing the shackle in the lock body
- The shackle, the body and the load-bearing parts of the locking mechanism are manufactured using specially hardened steel
- Special, modern design of the lock body casing allows for optimum handling

Use and application

- Outstanding protection in situations where there is a medium risk of theft
 - Recommended for protecting high-value bicycles and scooters
