

FOR VANS, PANEL VANS, AND STORAGE CONTAINERS

Our DI141 DISKUS® Integral hasp is a security hasp with an integrated Diskus® lock and fits most common transport and storage containers.

Enhanced dual security: our Diskus® integral hasps provide versatile protection for doors and gates. These specially designed hasps are perfect for securing vehicle panels and sliding doors, and they're equally effective at safeguarding barns and containers from unauthorized access.

Featuring a robust metal lock casing, these hasps offer reliable protection for the integrated 70-millimeter Diskus® lock, defending against break-ins and splashes of water. The frontal cylinder access ensures convenient operation for added ease of use.

Technologies

- Universal hasp with integrated Diskus® padlock (2 3/4") for doors and gates without rebate
- Easy to operate with one hand due to handy frontal cylinder access
- Extremely corrosion resistant cylinder
- Solid metal locking case almost completely prevents successful attacks on the integrated padlock
- Fixing material (screws, drilling template and spacers up to 13/64" height levelling) and Diskus® lock are included
- Extremely corrosion resistant

Use and application

- Universal hasp with integrated Diskus® padlock to secure doors and gates without rebate
- Will fit on most common transport and storage containers
- Also ideal for use on double wing doors (transporters, box waggons)

Variants

- Colors: white, black
- Individually boxed without lock (if need be without screws)
- Material to level differences of up to 13/64" is included
